SAVINGS INFORMATION

Over \$400,000 in annual energy and operational savings

Wicomico County was seeking to align themselves more so with their commitment to conserve valuable natural resources, economic growth, sustainability, and economic enhancement. Wicomico County partnered with ESG to develop and implement a \$5.3 million guaranteed energy savings performance contract. From this partnership Wicomico County is aligned with their commitment and is saving over \$400,000 in annual energy and operational savings.

SOLUTION

ESG implemented comprehensive energy conservation measures and building improvements that included the following:

- Provided lighting upgrades
- Provided transformer upgrades
- Installation of building envelope improvements
- Installation of new boilers and chillers
- Installation of water conservation measurements

RESULTS

Wicomico County will receive approximately \$4.8 million in energy and operational savings over the twelve year term of the contract from this partnership.
